THE COPPER CLUB, INC. RECOGNIZES TECK RESOURCES' DON LINDSAY WITH PRESTIGIOUS ANKH AWARD

New York, NY (March 2, 2023) – Today, [The Copper Club, Inc.](http://www.copperclub.org) announced **Don Lindsay**, recently retired President and Chief Executive Officer for Teck Resources Limited (TSX: TECK.A and TECK.B, NYSE: TECK) as the 2023 Ankh Award recipient. The award will be presented at The Copper Club's Annual Dinner on June 14, 2023, at The Plaza Hotel in New York City, NY. Lindsay will be honored in recognition of his exceptional service to the copper mining industry as well as his steadfast efforts in promoting the crucial role copper plays in creating a more sustainable future.

The prestigious Ankh Award has been bestowed every year since 1962 to professionals who have made extraordinary contributions to the copper industry. Attendees at the annual dinner include industry leaders from the mining, refining and smelting, fabricating, manufacturing and financial services sectors from around the world.

Copper Club Chair Stephen T. Higgins said, "The Board of Directors is pleased to honor Don as the 2023 Ankh Award recipient. This well-deserved recognition acknowledges his vast contributions to the copper industry and outstanding leadership not only at Teck but throughout the broader metals industry. In addition to recognizing Don at our annual dinner, we will announce the 2023 recipients of our scholarship award program, which helps support the future of the copper industry by investing in the education and development of the next generation of professionals."

"From his work promoting the critical role of copper in the low-carbon transition to advancing the use of antimicrobial copper to keep people and communities safe, you can't overstate the impact Don Lindsay has had on the copper industry," said Jonathan Price, CEO of Teck. "Don has been a transformative figure for our sector, with an unwavering commitment to health and safety and a passion for sustainable mining to help build a better, cleaner world."

Don Lindsay recently stepped down as President and CEO of Teck Resources Limited after a successful 18 years with Canada's largest diversified mining, mineral processing, and metallurgical company. Under his leadership, Teck significantly expanded its resource base and production capacity and built one of the industry's strongest copper growth pipelines, including the QB2 project nearing completion in northern Chile, which will make Teck one of the world's leading copper producers. Lindsay also led Teck's Copper & Health program, which promoted the use of copper's unique antimicrobial properties as an innovative solution to infections in healthcare facilities and busy public spaces. He has driven Teck's commitment to sustainability, positioning the company as an industry leader in ESG performance, including setting ambitious sustainability targets such as net-zero GHG emissions by 2050 and Nature Positive by 2030.

The Copper Club's Educational Grants Program assists exceptional students in preparing for careers in fields related to maintenance and expansion of the copper industry. Through the generous donations of members, the program awards grants to students who demonstrate academic excellence and financial need, and to date has provided more than \$1 million in scholarships. Supporting and attracting students to the copper industry is more important than ever as the demand for copper increases to support the global economy and the transition to sustainable and low carbon future.

About The Copper Club

The Copper Club was formed in 1944 to convene all participants in the copper industry. It is comprised of copper producers, fabricators, refiners, dealers, traders and merchants. The Copper Club seeks to promote the interests of the copper industry. By honoring those who have forged pathways in the industry and paving new paths for students working toward careers in the industry, The Copper Club ensures the past, present and future of copper.
